Type	Notes
Demand	The Billing Demand upon which the Demand Charge is applied is the Customer's average kilowatt load measured during the fifteen minute period of maximum use during the respective Time of Use Period, unless otherwise specified by contract.
Meter	6.25 per additional meter per month
Power Factor	The rate shall be applied to the difference between actual kVARh and the kVARh equivalent to a 90% power factor level. If the actual kVARh are greater than kVARh equivalent to a 90% power factor, then the adjustment shall be a charge to the Customer. kVARh equivalent to a 90% power factor level shall be estimated as 0.484 times total billed kWh during the Billing Period.
